# BILL FOR SANITARY ALEXANDRIA NEEDS CAPITAL'S SUBURBS Postoffice Department May Ex-

All Water, Sewerage, and Drainage Systems Taken Out of Hands of Municipalities.

**NEW CORPORATION CREATED** 

Takoma Park, Kensington, Forest Glen, Mt. Rainier, and Hyattsville Affected.

All existing and contemplated water, sewerage, and drainage systems in Maryland towns adjacent to the Dis-trict of Columbia are taken out of the hands of the different municipalities and placed in the charge of a commission by a bill now pending in the Maryland legislature.

An immediate effect of the bill is to halt temporarily the plans for the building of Takoma Park's new 3,500,000gallon reservoir and settling basin. The council of the town already has called a special election to authorize a \$25,000

bond issue for the purpose.

The commission is to be known as the Washington Suburban Sanitary Commission. It will consist of three members, one to be appointed by the county commissioners of Montgomery county, one by the commissioners of Prince George county, and the third by the governor of Maryland.

county, and the third by the governor of Maryland.

The grea, which will be in charge of the commission, is created as a special corporation by the bill. It extends as far as Bradley Hills, Garrett Park, Edgewood, Wheaton, and Burnt Mills, in Montgomery county, and Berwyn, Branchville, and Lanham, in Prince George county.

Systems Affected by Bill.

The municipal water and sewerage systems of Takoma Park, Kensington, Forest Glen, Mt. Rainier, and Hyattsville are well within the territory, and if the bill passes will be in the sole charge of the commission.

The commission is constituted a body corporate with power to sue and be sued and to do any and all corporate acts to carry out the previsions of the legislation.

Power to condemn land within or without the area, to construct water, tewerage, and drainage systems, and to take over, collect water rents and operate all existing systems is specifically conferred.

Existing water and saverage systems

Existing water and sewerage systems will be taken over by purchase by the commission, and the commission will determine the terms under which present systems will connect with the systems to be created by the commission. Authority also is given to compel properties to connect with the systems and to promulgate plumbing rules and regulations.

Otto G. Raymond, secretary both of Washington.

The city gas committee opened bids is night for the yearly supply of coal for the city gas plant.

An effort is being made by the Alexandria Light Infantry, officially known as Coursely G. First Paris.

The area in the Washington suburban sanitary district is to be divided by the commission into sewer districts, and the question of constructing systems in each one is to be referred to the qualified voters of each district.

Would Issue Bonds.

Where the vote is favorable, funds are to be provided by the issuance of bonds by the county commissioners of the counties affected. The county commissioners are required to bonds upon the request of the commis-

The bill was introduced by Delegate Blanford of Prince George county. It is now being considered by the bygiene committee of the Maryland House of Delegates. Dr. John Gardner and Delegate Van Horn are the members of the committee from Montgomery and Prince George counties, respectively.
